Portfolio and project work

SUMMARY

Business intelligence and analytics professional with 6+ years of experience delivering reporting automation and analytics solutions. Experience includes internal audit reporting at Santander, Snowflake SQL transformations at Hershey, and Microsoft Fabric, Power BI, and Python solutions.

PROJECTS

Enterprise Reporting - Power BI
Modernized enterprise reporting at The Hershey Company by building Microsoft Fabric solutions and optimizing Power BI data models. Improved reporting performance by 50% and reduced overhead by 30%.

Real Estate AI Sales Bot - AI Developer
Built an AI assistant using ChatGPT's API to automatically generate and post 100+ real estate listings daily, increasing lead generation by 50+ inquiries per day and freeing up agents' time for in-person showings.

Customer Behavior Analysis - Data Analyst
Used IBM Cloud Watson Studio's AutoML to predict orders based on customers' online behavior and conduct customer segmentation analysis.

Tableau Dashboard Portfolio

TRAINING & CERTIFICATES

Alteryx Designer Core

Microsoft Power BI Data Analyst Course

Microsoft Fabric Analytics Engineer Course

Microsoft Power Platform

DataCamp Certified: Data Engineer

WORK EXPERIENCE

Santander Bank, N.A. - Senior Specialist, Data Science **07/2025 - Current**

- Automated end-to-end internal audit reporting in Power BI, eliminating manual processes and reducing audit preparation and reporting time by **~80%**.
- Led migration of audit dashboards from Tableau to Power BI, establishing CISA-aligned, controlled reporting frameworks that improved metric consistency and evidence reliability.

The Hershey Company - Data Visualization Engineer **10/2023 - 06/2025**

- Served as a strategic advisor for enterprise-wide reporting initiatives, specializing in **Power BI**, **Tableau**, and **Alteryx**, driving cost savings of **~$150K**.
- Enhanced Power BI dashboards by refining data transformations and optimizing reporting models, improving model performance by 50% and supporting leadership reporting.
- Converted complex Alteryx workflows to Snowflake SQL and decommissioned RPA solutions, reducing reporting overhead by 30%.

CRICO - Data Analyst **04/2023 - 09/2023**

- Developed predictive analytics dashboards using Power BI and Python to improve patient safety within the Harvard medical community and reduce workload by 20%.
- Used SQL and Snowflake to extract, transform, and load data for analytics.

Northeastern University - Data Visualization Analyst **02/2022 - 10/2023**

- Built and optimized Tableau and Power BI dashboards for alumni surveys, integrating the ChatGPT API with Python to analyze alumni feedback.
- Automated data collection with Selenium to analyze institutional metrics.

Just Drive Media - Social Media Analyst **06/2022 - 02/2023**

- Created R Shiny dashboards to visualize sentiment analysis results and insights.
- Processed large datasets and employed text analytics to guide brand strategy decisions.

INDEXBOARD - Business Analyst **03/2020 - 09/2021**

- Boosted productivity by **30%** by automating tasks with Selenium in Python.
- Analyzed public-company financial statements from SEC reports to support business analysis.

EDUCATION

NORTHEASTERN UNIVERSITY, Boston, MA **12/2022**
Master of Science in Business Analytics

AMERICAN UNIVERSITY OF ARMENIA, Yerevan, Armenia **05/2021**
Bachelor of Arts in Business

SKILLS

- **Sales & Reporting Tools:** Power BI (DAX, Admin), Tableau, Salesforce, CRM
- **Data & ETL:** Microsoft Fabric (Lakehouse, Dataflow), Snowflake, dbt
- **Analytics & Automation:** SQL, Python (ML models, NLP), Power Automation
- **Languages**: SQL, Python, R, M, DAX
